

# ProBusS Trailer Wash Rack™

## Faster, safer, more effective trailer cleaning

- Simplifies cleaning of trailer interior, including inside the overhead door
- Provides operator easy, safe access
- Ball bearing rollers help prevent hose wear and snags
- Metal screen channels debris to removable baskets, helps prevent clogged floor drains
- Moves easily on large casters

### Important safety features:

- Dual hand rails
- No-slip steps
- Self-closing gate
- Sturdy, stable platform
- Separate lock brakes

### Options:

- Hose reel
- Different mesh sizes, stainless or standard steel
- Debris baskets of any size and depth
- Holster for high pressure wand
- Custom dimensions to fit any wash bay, trailer, or garage

### Standard rack dimensions:

Overall height: 88"  
Operator platform height: 58"  
Overall width: 96"  
Depth: 24"

The *ProBusS Trailer Wash Rack* makes trailer cleaning easier and faster, and helps keep workers safe. Choose the standard model or we will build to suit.

**ProBusS**

*Skilled trades professionals  
-on site, on demand*

Choose the standard model *ProBusS Trailer Wash Rack*, or add options such as a retractable hose reel, stainless steel screen, and moveable stairs (above).

Safer access to trailers with dual hand rails, skid-resistant steps, and self-closing gate.

Optional stairs that swing 90° for more efficient storage.

Retractable hose reel option.

Gate closes automatically for safety.

Choose standard debris baskets or specify custom dimensions.

Locking brakes keep rack safely in place.
